

Interruptions

for two percussionists

Neil Thornock

Performance notes

1. The outer two lines of each staff are long-decay instruments (cymbal, gong, tympani, etc.).
2. The inner three lines of each staff are short-decay instruments (skins, woods, metals).
3. Instruments are pitched high to low, the instruments of percussion 2 pitched lower than those of percussion 1.
4. Exact instrumentation and mallet or stick choice is left to the discretion of the performer.
5. The long-decay instruments are always allowed to ring.
6. Performance is from score.
7. The notation of movement two indicates the approximate relationship of events between performers.
8. The middle section of movement two contains six segments. Percussionist 2 plays continuously through all six. At the beginning of each segment, percussionist 2 provides a cue for percussionist 1. At the cues, percussionist 1 plays the appropriate segment. Upon completion of each segment, percussionist 1 awaits the next cue silently. The conclusion is played immediately after the six segments have been performed.
